ESSENCECOLOR

ESSENCECOLOR high performance coloring cream is a natural system that satisfies the expert's requirements thanks to its natural tones. **ESSENCECOLOR** fulfills the highest expectations, it covers white hair and grey hair & contributes to increase shine, silkiness and color of the hair.

The active ingredients that compose **ESSENCECOLOR** are 100% natural such as cactus flower, blue agave, green tea, jojoba, rosemary and kelp, protection with incredible results. Therefore **ESSENCECOLOR** is the ideal choice for brilliant hair color, using the most advanced technology color formula with natural solar filters that achieve more durability to your dyed hair.

ESSENCECOLOR hair coloring cream has been developed to be used only with oxygen cream 10,20 30 or 40 volumes formula 1+ 150 ml.

OXYGEN cream innovative natural formula activates the coloring process and preserves hair with protecting agents from wheat and soy essentials amino acids, giving hair natural moisture balance.

ESSENCECOLOR es un sistema de coloración en crema natural de alto rendimiento que satisface las necesidades de los profesionales, ya que gracias a la utilización de cada uno de sus tonos cumple totalmente los estándares de la mejor calidad: Cubrimiento de cana, duración, brillo y sedosidad. Los ingredientes activos que componen a **ESSENCECOLOR** son 100% naturales como flor de cactus, agave azul, té verde, jojoba, romero y alga marina protegen al cabello con increíbles resultados.

Por todo ello, **ESSENCECOLOR** es la elección ideal para una brillante coloración de cabello, utilizando la tecnología más avanzada en coloración, así como filtros solares naturales que le otorgan mayor duración al color del cabello teñido. Los tintes **ESSENCECOLOR**, han sido diseñados para activarse exclusivamente con el peróxido en crema OXYGEN cream de 10, 20 30 ó 40 volúmenes en proporciones 1+ 150 ml respectivamente.

OXYGEN cream con su innovadora fórmula natural activa el proceso de coloración al mismo tiempo que deposita agentes protectores provenientes de aminoácidos esenciales de trigo y soya, proporcionándole al cabello un balance natural de humedad.

PSYKE COLORS / COLORES PSYKE

Tones to give chromatic highlights

COLOR WHEEL CÍRCULO CROMÁTICO

LAWS OF COLD AND WARM

The hair coloring is based on the laws of color. All hair dyes are based on the interaction of the primary colors. The opposite colors on the chromatic circle, neutralize each other, so the violet neutralizes yellow, green neutralizes red and blue to orange.

LEY DE LOS FRIOS Y LOS CÁLIDOS

La coloración del cabello se basa en las leyes del color. Todos los tintes para el cabello se basan en la interacción de los colores primarios. Los colores opuestos en el círculo cromático, se neutralizan unos a otros; así el violeta neutraliza el amarillo, el verde neutraliza el rojo y el azul al naranja.
